

Branded Face Shields

How to Remove the Liner

Our face shields come with a protective plastic film as a liner to prevent scratches to the shields during packing and shipping. Remove the liner before using the product.

- 1 With a piece of tape (Scotch or another tape with a good grip), attach part of the tape to the corner of the plastic film.
- 2 Hold the non-attached part of the tape and pull backwards to peel the film away from the shield.
- 3 If you are having difficulty, try holding down the shield area just below the tape while you peel. You can also use tweezers to remove the film from its corners.

How to Wear the Face Shield

- 1 Remove the liner film before wearing the face shield.
- 2 Stretch the elastic around your head so that the foam sits on your forehead.
- 3 Adjust as necessary.

Please note that this product is suitable for individual use only and should not be shared with anybody else.

How to Apply the Sticker to Branded Face Shields

To add branding to your face shields, be sure to order the product Branded Face Shields. Your face shields will come with vinyl stickers printed with the artwork that you have uploaded.

- 1 Before applying the sticker, remove the liner film from the face shield and ensure that the shield is clean and dry.
- 2 Peel a corner of the sticker away from the backing and apply it to the edge of the area shown below:

- 3 Gradually peel more of the sticker and apply it a little at a time to the section shown in the image above.
- 4 Work your way through the entire sticker.
